CERTIFICATE III IN HORTICULTURE

Transform outdoor spaces into thriving landscapes

The Course:

Worklinks offers a nationally recognized Qualification in Horticulture, your passport to a rewarding career in gardening, landscaping, or even starting your own business!

Open to all, whether you're a home gardening enthusiast, a handyman seeking new skills, or simply passionate about plants, this flexible, industry-expert led program equips you with the essentials:

- **Planting & Growing:** Master planting techniques, cultivate healthy trees and shrubs, and revitalize lawns.
- **Plant Care:** Learn to diagnose and treat pests, diseases, and disorders for thriving gardens.
- **Landscaping Basics:** Master the art of laying paving, creating paths, and shaping outdoor spaces.
- **Professional Skills:** Gain confidence with pruning, potting, and more, all under the guidance of experienced instructors.

Unlock Your Potential:

- **Employment Opportunities:** Gain the qualifications employers seek.
- **Start Your Own Business:** Launch your landscaping or gardening venture.
- **Further Education:** Pave the way for advanced studies.

Supportive Learning:

Flexible Schedule: 4 days on-site training (Caboolture) + self-paced coursework.

Tuesday to Friday - 9am to 2pm

Individualized Support: Get help with literacy, numeracy, and understanding key concepts.

Full Cost of Course: \$2380
